4. ASSEMBLE SICKLE

Align 2 cap bolts, 2 spring washers, 2 flat washers & 2 nylon lock hex nuts as drawing and fasten them firmly.

5. MAINTENANCE

1. Fill palm gear case with grease in every 25 hours operation.
2. Attach grease gun to grease nipple and pump the grease into palm gear case and always use #2 lithium heat-resistant grease.
3. Open the oil screw to make sure grease is filled up whole palm gear case.

Caution :

1. Make sure to fasten all screws
2. Need to check all screws are firmly fastened every time before usage.
